

## **Trivia With Budds At Home Edition!**

### **Rules & Instructions**

Enjoy five rounds of trivia game play from anywhere! Listen to the episode as a group (or solo) and write down your answers to the questions individually or in teams.

The first four rounds are 11 questions and worth 12 points. The first 10 questions are all worth 1 point and the bonus is worth 2 points.

**DOUBLING UP:** You can double up one of the first four rounds before you “turn in” your answer sheet. Doubling up gives you twice as many points for everything you got right, so if you earned 7 points for your answers, you’d give yourself 14 points for doubling. It’s not double or nothing, it’s just whatever you get right is doubled. You can only do this once throughout the game.

The last round is the Confidence Round. There are ten totally random questions, and you’ll write down your answers and then rank them in the ranking column with the numbers 10-1. 10 is highest, 1 is lowest. Whatever number you write next to your answer is how many points you get if it’s right. You can only use each number once and there is no zero option. You can score up to 55pts on this round.

Feel free to add/edit these rules however you want!

Some bonus point ideas:

- Best team name
- Quickest to turn in answer sheet
- Who brought the best beer, wine, dessert, etc
- Best doodles on the back of answer sheet
- Best penmanship
